

# Kettering University Dual Enrollment Proposal

Embedded Classes- Taught at Powers Catholic: Calculus I (first semester) and Calculus II (second semester) as taught at Kettering University would be offered for 49 minutes four days/ week with a supervised tutoring session on the fifth day. Kettering University standards of excellence and credit apply. Students receive a grade and credit for each course completed.

Kettering University- On Site Class: MECH 100- Engineering Graphical Communication 204 (4) (Beginning Mechanical Engineering Class)- Computer aided design and drafting course is an introduction to engineering graphics and visualization. Topics include development and interpretation of drawings and specifications for product realization.

Students taking these courses may request transcripts, but would be responsible for knowing and specifics of MACRO agreements between Kettering and other universities.
